KARTCOM

Naturally the KSP / Kartcom team is not going to steal the show of the Paris-Bercy ERDF Masters Kart - held on 10 and 11 December - from any of the phenomenal drivers to be found there. About half a dozen F1 drivers, 3 rally men including a eight-time World Champion, some of the most promising hopefuls of car racing and ten of the best Junior kart drivers: these are the real stars of the meeting, not to mention the new Sodi STX, the first 100% electric race kart manufactured by the largest kart producer in the world, the French company Sodikart.

But *the photographers of the KSP Agency and the editorial staff of Kartcom will ensure, during a non-stop marathon from Friday to Sunday evening, full coverage of the revival of this legendary event* - which has seen the greatest names of car racing battling in the 1990s - before a crowd of appreciative spectators and enthusiastic media.
